## CORE COMPETENCIES

Software Development Lifecycle

Application Design & Development

Agile Methodology

Scrum Events

Requirement Gathering

Application Migration

Code Optimization

Programming

Unit Testing, WDIO Testing

Defect Management

Bug Fixing

Cross-functional Coordination

## ACHIEVEMENTS

🏆 Quarter Champion Q3-2022  
Introduced features in our project and got appreciation for it from US based Product Owners as well as Clients. Got many sprint Champion awards as well.

🏆 TCS conducted an exam all over India, selected in coding round in that event and secured 1<sup>st</sup> rank in the college, and overall rank in India was around 2000

# ABHINAV ANAND

## SOFTWARE DEVELOPMENT

Designed, developed and implemented innovative software solutions, committed to delivering high-quality code, optimizing application performance.

Targeting assignments in **Software Development** preferably in **Bangalore**

## PROFILE SUMMARY

- Leveraging **2 years** of experience, currently working as **Software Engineer I** at **Oracle Cerner**, collaborating with a team of developers and testers to design and develop innovative solutions that exceed client expectations
- Comprehensive knowledge of entire **Software Development Lifecycle (SDLC)** right from requirement analysis, documentation (functional specifications, technical design) to maintenance of proposed applications
- Skilled in **development & deployment of web applications**, conducted **code reviews**, resolved complex technical issues, optimized application performance and implemented software enhancements
- Conducted comprehensive **unit testing** and **WDIO testing** to guarantee the high quality and reliability of software applications, identified & **resolved bugs, defects, issues** if any, also
- Employed **Agile methodology** to add value to the deliverables, participated in Scrum events including sprint planning sessions, backlog grooming, daily scrums, sprint reviews and sprint retrospectives, acted as quality control point for pre-set deliverables
- Acknowledged for innovatively introducing new features in projects, garnering appreciation from both product owners and clients
- Proficient in technologies such as **React, Redux, Java, CCL, SQL, Ruby, Jira, Github, Crucible**

## WORK EXPERIENCE

### Oracle Cerner as Software Engineer 1

Sep'21 - Present

#### Key Result Areas

- Collaborating with a team of developers and testers at Oracle Cerner to design & develop innovative solutions that exceed client expectations
- Utilizing agile methodologies to lead the development process, ensuring the on-time delivery of top-notch software applications
- Introducing new features in our project which was having certain amount of complexity in really short duration of time for which our team was appreciated
- Working on migrating our old legacy applications to new tech stack including React, Ruby and Java
- Implementing code optimization techniques to enhance the performance & efficiency of software applications

## PERSONAL PROJECTS

### COVID19 Donation Camp

Jul'20

- Designed web app using HTML, CSS, JS, Django, SQLite
- Platform which will help the people to donate and ensure their donation will reach to the people who actually need it, was created for IBM Hackathon

### GeoFencing Attendance System

Sep'19 – Feb'22

- Built an understanding of how to build Mobile App and make it interact with backend
- Designed WebApp & Mobile App using HTML, CSS, Javascript, Django, React-Native, SQLite

## TECHNICAL SKILLS

React

Redux

CCL

Crucible

Github

nodeJS

SQL

NextJS

Jira

Java

Ruby

## EDUCATION

2017 – 2021: Bachelor of Engineering, New Horizon College of Engineering

9.21 SGPA

2017: 12<sup>th</sup>, DAV Kapildev Public School

2015: 10<sup>th</sup>, DAV Kapildev Public School

- Employees can mark themselves present by mobile phone and their attendance will only be marked when they are present in office

### COVID - Tracker

Aug'20

- It will show the details of COVID cases in whole world and each country
- Use of simple free API to get all the data and displayed it in the content of website. The app is developed using ReactJS

### Netflix Clone

Sep'20

- Built a Netflix Clone using ReactJS. Use of API to render movies
- Even trailer can also be shown by clicking on Movies

## CERTIFICATIONS

- 2020: Data Structure & Algorithm Using Python, Coding Ninjas
- 2020: Data Science for Engineers, NPTEL

## PERSONAL DETAILS

**Date of Birth:** 8<sup>th</sup> August, 1999

**Languages Known:** English, Hindi
