EDUCATION

New Horizon College of Engineering

BE in Information Science and Engineering

Bangalore, Karnataka

2017-2021

DAV Kapildev Public School

Class XII

Ranchi, Jharkhand

2016-2017

EXPERIENCES

Oracle Cerner — Software Developer 1

2021-Present

Bangalore

- Develop and maintain applications 'Safety and Attendance' and 'Multi Patient Charting' using React, Redux, Saga, improving system security by addressing CVEs.
- Design and develop front-end interfaces for key modules using ReactJS, Terra UI, and CSS, ensuring robust functionality through comprehensive Jest unit testing.
- Optimized application code to improve performance and efficiency, overseeing the streamlined release and deployment of new modules.
- Automated routine service operation calls by developing a NextJS web application, reducing manual input time by 40% and eliminating Excel usage.

PROJECTS

GeoFencing Attendance System | *React-Native, Django, MYSQL, HTML, CSS, Python*

[link](#)

- Developed a GeoFencing Attendance System mobile app with React-Native, integrating Django and MYSQL to ensure employees could only mark attendance within predefined office premises, enhancing attendance accuracy and policy compliance.
- Additionally, created an administrative web portal for managing employee profiles and monitoring attendance records, streamlining HR operations and data access.

Covid 19 Donation Camp | *HTML, CSS, Bootstrap, Django, Python*

[link](#)

- Engineered a web-based donation platform using Django, facilitating seamless connections between donors and recipients during the COVID-19 pandemic, which significantly enhanced community support efforts.

Netflix Clone | *ReactJS, CSS, Tailwind CSS*

[link](#)

- Constructed a Netflix clone using ReactJS and Tailwind CSS, implementing external API integrations to fetch and display a variety of movie selections dynamically.

My Portfolio | *NextJS, NodeJS, Express JS, MongoDB, Tailwind, Shadcn, Vercel*

[link](#)

- Designed a comprehensive personal portfolio using NextJS and NodeJS, showcasing professional achievements, project details, and educational background, hosted on Vercel for optimal performance and scalability.

ACHIEVEMENT

Quarter Champion Q3-2022

- Awarded 'Quarter Champion Q3-2022' for spearheading feature developments that garnered commendations from US-based product owners and clients, significantly enhancing user satisfaction and operational efficiency.

Code Vita - 2021

- Achieved 1st rank in college and top 2000 nationally in TCS Code Vita 2021, a competitive coding exam held across India, demonstrating superior coding skills and problem-solving abilities.

TECHNICAL SKILLS

Programming Languages: Javascript, Python, Java, Typescript

Frameworks and Libraries: ReactJS, NextJS, NodeJS, Express JS, Tailwind CSS, Shadcn

Databases: MongoDB, SQL

Tools and Platforms: Jenkins, GitHub, Docker, AWS, Jira

Core Competencies: Application Design & Development, Software Development Lifecycle, Application Migration, Code Optimization, Cross-functional Coordination, Requirement Gathering

Methodologies: AGILE, SCRUM
